

# Contents

List of Exhibits	xiii	<i>Group Differences and Sensitivity to Change</i>	37
1. Introduction	3	<i>Construct Validity: Conclusion</i>	39
Background	3	Assessing Reliability	39
Selection of Instruments for Review	3	<i>Internal Consistency</i>	42
Structure of the Book	4	<i>Interpreting Reliability Coefficients</i>	45
Style and Content of the Reviews	5	Summary	46
Format for the Reviews	5		
Evaluating a Health Measurement: The User's Perspective	7		
2. The Theoretical and Technical Foundations of Health Measurement	10	3. Physical Disability and Handicap	55
The Evolution of Health Indicators	11	The Evolution of Physical Disability Measurements	55
Types of Health Measurements	12	Scope of the Chapter	58
Theoretical Bases for Measurement: Psychophysics and Psychometrics	16	<i>The Purses Profile</i>	62
Numerical Estimates of Health	18	<i>The Barthel Index</i>	66
<i>Scaling Methods</i>	18	<i>The Index of Independence in Activities of Daily Living, or ADL</i>	74
<i>Psychometric Methods</i>	20	<i>The Kenny Self-Care Evaluation</i>	78
<i>Methods Derived from Economics and Decision Analysis</i>	23	<i>The Physical Self-Maintenance Scale</i>	84
Identifying and Controlling Biases in Subjective Judgments	25	<i>The Disability Interview Schedule</i>	88
Conceptual Bases for Health Measurements	27	<i>The Lambeth Disability Screening Questionnaire</i>	89
The Quality of a Measurement: Validity and Reliability	30	<i>The OECD Long-Term Disability Questionnaire</i>	93
Assessing Validity	30	<i>The Functional Status Rating System</i>	95
<i>Criterion Validity</i>	31	<i>The Rapid Disability Rating Scale</i>	97
<i>Construct Validity</i>	34	<i>The Functional Status Index</i>	100
<i>Correlational Evidence of Validity</i>	34	<i>The Patient Evaluation Conference System</i>	103
<i>Factorial Validity</i>	36	<i>The Functional Activities Questionnaire</i>	108

- The Health Assessment Questionnaire* 111
  - The MOS Physical Functioning Measure* 119
  - The Functional Autonomy Measurement System* 122
  - The Functional Independence Measure* 141
  - Conclusion 149
4. Social Health 150
- Social Adjustment and Social Roles 151
  - Social Support 152
  - Scope of the Chapter 153
    - The Social Relationship Scale* 155
    - The Social Support Questionnaire* 158
    - The RAND Social Health Battery* 161
    - The MOS Social Support Survey* 165
    - The Duke-UNC Functional Social Support Questionnaire* 168
    - The Duke Social Support and Stress Scale* 170
    - The Katz Adjustment Scales* 173
    - The Social Functioning Schedule* 177
    - The Interview Schedule for Social Interaction* 180
    - The Social Adjustment Scale* 184
    - The Social Maladjustment Schedule* 194
    - The Social Dysfunction Rating Scale* 196
    - The Structured and Scaled Interview to Assess Maladjustment* 199
  - Conclusion 203
5. Psychological Well-being 206
- Scope of the Chapter 208
    - The Health Opinion Survey* 210
    - The Twenty-Two Item Screening Score of Psychiatric Symptoms* 216
    - The Affect Balance Scale* 221
  - The Positive and Negative Affect Scale* 225
  - The Life Satisfaction Index* 231
  - The Philadelphia Geriatric Center Morale Scale* 236
  - The General Well-Being Schedule* 240
  - The RAND Mental Health Inventory* 247
  - The Health Perceptions Questionnaire* 253
  - The General Health Questionnaire* 259
  - Conclusion 271
6. Anxiety 273
- Theoretical Approaches to Anxiety 274
  - Anxiety and Depression 276
  - Anxiety Measurements 277
    - The Taylor Manifest Anxiety Scale* 279
    - The Hamilton Anxiety Rating Scale* 286
    - The Hospital Anxiety and Depression Scale* 294
    - The Zung Self-Rating Anxiety Scale* 302
    - The Zung Anxiety Status Inventory* 302
    - The Beck Anxiety Inventory* 306
    - The Depression Anxiety Stress Scales* 313
    - The State-Trait Anxiety Inventory* 319
  - Conclusion 327
7. Depression 329
- Classifications of Depression 330
  - Measurement of Depression 332
  - Scope of the Chapter 333
    - The Beck Depression Inventory* 335
    - The Self-Rating Depression Scale* 344
    - The Center for Epidemiologic Studies Depression Scale* 350
    - The Geriatric Depression Scale* 359
    - The Depression Adjective Check Lists* 364

- The Hamilton Rating Scale for Depression* 369
- The Brief Assessment Schedule—Depression* 378
- The Montgomery-Åsberg Depression Rating Scale* 382
- The Carrol Rating Scale for Depression* 387
- Conclusion 390
8. Mental Status Testing 394
- Measurements of Cognition, Cognitive Impairment, and Dementia 395
- Scope of the Chapter 396
- The Dementia Rating Scale* 399
- The Cognitive Capacity Screening Examination* 404
- The Clock Drawing Test* 407
- The Alzheimer's Disease Assessment Scale* 411
- The Information-Memory-Concentration Test* 417
- The Dementia Scale* 420
- The Mental Status Questionnaire* 423
- The Short Portable Mental Status Questionnaire* 426
- The Mini-Mental State Examination* 429
- The Modified Mini-Mental State Test* 441
- The Informant Questionnaire on Cognitive Decline in the Elderly* 449
- The Clifton Assessment Procedures for the Elderly* 456
- The Cambridge Mental Disorders of the Elderly Examination* 460
- Conclusion 464
- Additional Instruments 465
- Screening Tests* 465
- Instruments for Clinical Application* 466
- Diagnostic Instruments* 467
9. Pain Measurements 470
- Theoretical Approaches to Pain 470
- Approaches to Pain Measurement 472
- Questionnaire Techniques 473
- Behavioral Measurements of Pain 473
- Analogue Methods 474
- Scope of the Chapter 474
- Visual Analogue Pain Rating Scales* 477
- The McGill Pain Questionnaire* 483
- The Brief Pain Inventory* 491
- The Medical Outcomes Study Pain Measures* 496
- The Oswestry Low Back Pain Disability Questionnaire* 498
- The Back Pain Classification Scale* 501
- The Pain and Distress Scale* 506
- The Illness Behavior Questionnaire* 508
- The Pain Perception Profile* 514
- Conclusion 517
10. General Health Status and Quality of Life 520
- Measuring Quality of Life 520
- Scope of the Chapter 522
- The Arthritis Impact Measurement Scales* 526
- The Physical and Mental Impairment-of-Function Evaluation* 535
- The Functional Assessment Inventory* 538
- The Functional Living Index—Cancer* 541
- The Functional Assessment of Cancer Therapy* 546
- The EORTC Quality of Life Questionnaire* 551
- The Quality-Adjusted Time Without Symptoms and Toxicity Method* 559
- The Quality of Life Index* 564
- The COOP Charts for Primary Care Practices* 569
- Single-Item Health Indicators* 578
- The Functional Status Questionnaire* 587
- The Duke Health Profile* 591

<i>The OARS Multidimensional Functional Assessment Questionnaire</i>	596	<i>The Quality of Well-Being Scale</i>	675
<i>The Comprehensive Assessment and Referral Evaluation</i>	604	<i>The Health Utilities Index</i>	683
<i>The Multilevel Assessment Instrument</i>	609	<i>The EuroQol EQ-5D Quality of Life Scale</i>	694
<i>The Self-Evaluation of Life Function Scale</i>	611	Conclusion	702
<i>McMaster Health Index Questionnaire</i>	612	11. Recommendations and Conclusions	704
<i>The World Health Organization Quality of Life Scale</i>	619	The Current Status of Health Measurement	704
<i>The Sickness Impact Profile</i>	630	Guidelines for Developing Health Measurements	705
<i>The Nottingham Health Profile</i>	639	Final Remarks	709
<i>The Short-Form-36 Health Survey</i>	649	Glossary of Technical Terms	711
<i>The Short-Form-12 Health Survey</i>	666	Index	719
<i>The Disability and Distress Scale</i>	671
